MANUAL STEERING RACK LOCK STOPS

Wider lock stop prevents tyre contact with tie bar on full lock

Approx 10.25mm thick

120968

For 4½”J wheels
Early MKI 2000

Approx 15mm thick

146364

For wider wheels

Notched later front strut spring platform (left) offers greater inboard tyre clearance, especially if using tyre side walls 65 aspect or taller on a 15” rim
